to Remove Wrinkles

This season brings wrinkles to many sensitive skins that are much exposed to wind and changing temperatures. You can make all effective wrinkle remover, mix an ounce of powdered roseate and a half pint of water. Wash the face in this solution—immediately after the skin is affected. It acts wonderfully in bringing facial muscles into their normal position, and in removing the permanent and long properties. Use once a day for a while and see how it will improve the facial contour. It will make the skin feel like the most delicate skin. The treatment itself leaves no trace—no one guesses that you are using it to improve your appearance. But be sure to ask the druggist for the powdered **salvia**. Advertisement.

WEINSTOCK RAPS JOHN W. PRESTON

Criticism of his activities in the organization of milk producers has brought a reply from Colonel Harris Weinstock, State Market Director, in which particular reference is made to John W. Preston. Weinstock says in part:

"John W. Preston represents private creamery owners, and points out what purports to be a delinquency on my part, because as State Market Director I spoke from the same platform with President James M. Henderson Jr. of the Associated Dairywomen of California, Inc., and made an appeal to the dairymen to organize as a matter of self-protection, co-operative marketing associations."

"When the state market director stood on the same platform with President Henderson, appealing to the dairymen to organize, he was acting simply in accordance with the law and performing his official duty."

Legion Official Says Union Labor Friendly
INDIANAPOLIS, Ind., Jan. 13.—In a statement designed to show that while a few local labor unions have passed resolutions condemning the American Legion, organized labor in general is favorable to the legion and its policies, Franklin D. Elmer, national commander of the legion, quotes an article published in the Union Labor Journal of Bakersfield, Cal., which denounces as false reports that organized labor is unfavorable to the veterans' organization.

This article declares that the interests of the legion are identical with those of all workingmen and asserts that a report sent from Bakersfield that unions there had denounced the American Legion was "so maliciously groundless that it could only have been inspired by a desire to influence the legion and labor organizations elsewhere into an attitude of antagonism."

Iroquois, in 1881, was the first American horse to win an English derby.

Sale of Neckwear

For tomorrow we offer a Gigantic Special Purchase Event—Rufflings, Collars, Pleatings, Cuffs, Vests, Vestees

All brand new stock. This wonderful offer is made possible through our fortunate purchase. We have bought the entire stock of neckwear, rufflings, pleatings, collar and cuff sets, vests and vestees, etc., of one of the bay cities' largest garment houses, and the entire lot goes at just one-half the original marked prices. Not a price has been changed. Not a single piece has been held out, and in consequence this sale will present you an opportunity to select just what you want from one of the finest stocks of neckwear at only one-half regular selling prices. See the big window displays.

The most stupendous and thoroughly desirable offer of Neckwear in Months 1/2 off Regular Prices plainly marked. You pay only One-Half These Prices

This wonderful sale includes real hand embroidery, real lace collars, filet nets, Irish crochet, Venice, Torchons, etc., and George, ette, lawn, organdy, and other materials in a myriad of neck pieces.

The regular prices marked range from the very modest upward. They include prices at 50c, 75c, \$1.00, \$1.45, \$1.95, \$2.50, \$2.95, \$3.50, \$3.95, \$4.50, \$4.95, \$5.95 upward to \$33. Sale price just one-half these!

700 YARDS RUFFLINGS AND PLEATINGS—a most wonderful and complete showing included in this sale stock. There are dozens of boards in a splendid range of sorts, tints, styles, etc., and all most desirable.

DECLARES SOLONS CANNOT AID WETS

WASHINGTON, Jan. 17.—State legislatures cannot under the law repeal ratification of the constitutional prohibition amendment, Wayne B. Wheeler, counsel for the Anti-Saloon League, declared today in a statement discussing recommendations for repeal made to the lawmakers of New York, New Jersey and Maryland by the governors of those states.

Wheeler cited the attempt of New Jersey and Ohio to withdraw ratification of the fourteenth amendment. Congress refused to accept the repeal, and both states were counted among those voting affirmatively. Without their ratification the amendment lacked sufficient votes to become operative.

Chief Justice Marshall was quoted by Wheeler as follows: "The principle is asserted that one legislature is competent to repeal an act which a former legislature was competent to pass. The correctness of this principle, so far as respects general legislation can never be controverted. But if an act be done under a law, a succeeding legislature cannot undo it. The power cannot be recalled by the most absolute power."

PAPER MONEY IN MEXICO. MEXICO CITY, Monday, Jan. 12.—Paper money is in circulation in Mexico for the first time since 1916.

All Fat People Should Know This

The world owes a debt of gratitude to the author of the now famous Marmola Prescription and is still more indebted for the reduction of this harmless, effective obesity remedy to tablet form. Marmola Prescription Tablets can now be obtained at all drug stores or by writing direct to Marmola Co., 864 Woodward Ave., Detroit, Mich., and their reasonable price (\$1 for a large case) leaves no excuse for dieting or violent exercise for the reduction of the overweight body to normal proportions—Advertisement.

Don't Buy an Electric Washer Until You See The Apex Electric Washer and Wringer

It will do your week's wash for 2c worth of electricity in two hours' time. Made of copper. It will last a lifetime. 100 per cent satisfactory—no heavy wooden cylinders to lift—not an experiment, used for six years. Easy terms. Same as laundry bills. Free trial before you buy 2000 in use around the 'bay.

L. H. BULLOCK CO. 1335 Broadway. Phone Okld. 6183

JERSEY COLONS TOLD TO DELAY DRY LAW VOTE

TRENTON, N. J., Jan. 13.—Acting Governor William N. Runyon, in his message to the legislature today, opened the fight against the proposal of Governor-elect Edward I. Edwards to make New Jersey "wet." The legislature convened at noon.

Governor Runyon declared that no steps should be taken by the legislature before the United States supreme court renders its decision, which might be interpreted as an attempt to nullify the prohibition amendment.

SPEECH BY HAYS COMPELS ANSWER

WASHINGTON, Jan. 17.—Telegraphic correspondence between Secretary Glass and Chairman Hays of the House Committee on Finance, centering about the assertion of Hays in his Denver speech last week that the Democratic administration had sent out "thousands of tons of propaganda" to influence the food card signers, was made public last night by the secretary, who said he received the charge as an "entirely reprehensible statement of defamation."

Secretary Glass, in a telegram to Chairman Hays last Friday, the day following the Republican chairman's path quoting Hays as saying "the name of every buyer of Liberty bonds of the United States was put on the Democratic mailing list for the forthcoming campaign" and asked that Hays either produce proof "or publicly retract this slander upon the Treasury of the United States."

Replying the next day from Salt Lake City, Hays denied he had said that the treasury secretary "had furnished the names of all buyers of Liberty bonds for use of the Democratic committee as a mailing list." But that he did say "that the Democratic administration sent thousands of tons of propaganda to Liberty bond buyers, food card signers, war workers and others during the paper shortage, and while limiting the use of paper by the press and that a large part of it was Democratic political propaganda, and that all of it was paid for by the taxpayers."

SENATOR REED ATTACKS LEAGUE

ST. LOUIS, Mo., Jan. 13.—Calling attention to recent statements by President Lowell of Harvard, former President Taft and William J. Bryan on the league of nations, United States Senator Reed, Democrat of Missouri, in speaking last night at a banquet of citizens opposed to the league of nations, said: "Thus one by one the roses fall."

"All three have said the league should not be adopted unconditionally," asserted the senator and added: "In view of the fact that the president has declared a 'blue-ten' the backbone of the league, it appears that at least Brothers Lowell and Taft think so poorly of the scheme that they are willing to leave it spineless."

The senate is now in a deadlock, the president is now willing to go to the people," he said. A number of senators including myself, from the west have insisted that American people must be consulted. Now that the president has performed of that contention and because there is no other way out, agreed to let the people decide everything ought to be unanimous. For I assume those senators who have each morning, reverently exclaimed: 'We pray thee, oh most wise, tell us what we are to believe today,' will once more recognize their master's voice and obediently 'go to heel'."

The tide of public opinion is rapidly rising against ratification of this league with or without amendments. I call attention to the fact that Mr. Lowell, long an advocate of the league, now announces that article ten ought to be rejected. Mr. Taft has quite denouncing critics of the league as pigmy minded and has turned to abusing the President because he does not accept all reservations. Any new compromise the Commander who wisely declares that the American people would never surrender their right to fight in their own defense and who at the same time renounces the provisions of article ten."

FRENCH CLASS FORMING. A class for advanced French students is being organized by Professor Xavier Hansweil at the Technical high school. The class will meet every Monday and Wednesday evening.

Man Discovers Cause of Falling Hair

Thought It Was Dandruff, But Prof. John H. Austin, Bacteriologist, Hair and Scalp Specialist of Chicago, Showed the Ailment to Be 'Alopecia Pityrodes.'

Prof. Austin, who has had 40 years' experience in conditions of the hair and scalp, says there are about sixty different ailments to which the hair and scalp are subject. For instance, there is the above mentioned common scalp trouble, "Alopecia Pityrodes"—it starts with a scaling of the scalp, sometimes slight, called "dandruff," sometimes abundant—producing thick, grayish-white, dry or greasy scales—which lead to falling hair. This stage lasts from two to seven years, as a rule.

At first, when the hair starts to fall, it is hardly noticeable, but as this ailment, "Alopecia Pityrodes," becomes more deeply seated and the germs multiply, as they always do, the falling of the hair increases rapidly and in time the top of the head becomes entirely bald. Both men and women of all ages are subject to "Alopecia Pityrodes," but particularly those between the ages of 20 and 35 years.

Then, there are different stages of itching scalp, falling hair, excessively oily hair, dandruff, split hair, dry and brittle hair.

Prof. Austin says that the use of orange cure, dandruff cure, hair tonic, salicine and elixirs is like taking medicine without knowing what you are trying to cure.

During the past two years at the Owl Drug Store, Prof. Austin has treated hundreds of people who had lost falling hair, crown new hair, removed dandruff and relieve itching scalp.

Prof. Austin has found that only the most powerful microscope can determine the exact trouble with which your hair is afflicted and which you are taking advantage of this Free Microscopic Examination of the hair and scalp. Hours 12 to 12:30 p.m. and 2 to 4 p.m. daily. The Owl Drug Store, 14th and Washington—Advertisement.

The Easiest Way to End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to solve it. The dandruff is entirely. To do this, just get about four ounces of plain, ordinary liquid arvon, apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single dandruff particle, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

Political Field

WOOD REFUSES TO QUIT ARMY TO ENTER CAMPAIGN

BALTIMORE, Jan. 13.—"I shall not resign from the army, if such a step is necessary to be a candidate for president of the United States," President Wood declared today in connection with the army does not interfere with my presidential ambition which my friends are wishing upon me. As an officer of the army, I recognized President Wilson as my commander-in-chief and to him I owe my allegiance."

General Leonard Wood made this statement tonight at a private dinner party at the country home of Norman James near Baltimore.

"By profession I am a physician and surgeon," he said. "My military career is an afterthought. My keenest interest today lies in the noble profession of the physician and surgeon, the saving of human lives. However, I find myself in the army and to the advancement of the army I shall devote my life and energy."

MILLER TAKES CHARGE OF G. O. P. HEADQUARTERS

WASHINGTON, Jan. 15.—Former Representative Miller, the new secretary of the Republican national committee, took charge of national headquarters here today and at the same time James P. McDonald, the retiring secretary, opened national

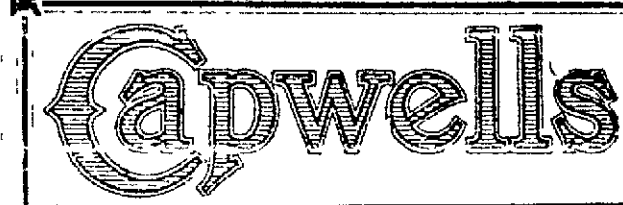

headquarters for Governor of Massachusetts.

By United Press GOVERNORS DECIDE TO BACK GEN. WOOD. CHICAGO, Jan. 13.—A Wood stock was registered in local stock here today with the announcement that four western accepted places on the Wood campaign committee.

Governor Henry Allen, of Nebraska; Governor J. A. Burnquist, of South Dakota, and Governor A. Shoup of Colorado, have announced that they were behind the campaign committee.

It was announced at the Wood headquarters here today. Other governors have announced their favorable attitude toward the campaign committee.

Wood, it was announced, added to the list within a few days.

New Fashions Unfolding New opportunities revealing daily at Oakland's Favorite Store

Charming gowns for Southern, Resort and Spring wear.

Trim, naive frocks for the promenade to lend youthfulness and to lend charm; the picturesque hat, the natty, youthful sport suit; the smartly tailored sport skirt with its crisply tailored blouse; the piquant, coquettish evening frock that reveals the fascination of the newest style ideas; and to top all, the graceful outer wrap for the beach or golf links.

A glimpse of the new styles can be had by visiting the store from 2 to 3:30 p.m. when many will be shown on mannequins who promenade about the store between those hours.

The January White Sales Bring Wonderful Values

These days when careful thought must be given to the cost of living it would not seem to be necessary to urge women to supply linen, towel and other needs for white goods at the savings offered in our sales.

Our Domestic and Linen Section started this second week of the sales with dozens of new, low-priced items in most cases prices lower than their present wholesale cost.

We worked very hard to get this merchandise for you at prices which mean a great saving when the time comes that we are forced to go into the markets again to replenish stocks.

This is the last week of the White Sales so do not delay.

POSILAM LIKES BAD CASES OF FIERY ECZEMA

When Posilam takes hold of virulent and stubborn eczema, it soothes and cools at once, putting a stop to the terrible itching. On raw parts of the skin it feels wonderfully grateful. As a local anesthetic, it penetrates the deeper layers just the healing process needed. Contrast the ease of healing with the severity of the trouble, and Posilam's work seems remarkable indeed. One ounce of Posilam costs a pound of eczema a life of ease.

Sold everywhere. For free sample write to Emergency Laboratories, 225 West 31st St., New York City.

Give your skin to become fresher, clearer, better by the use of Posilam. Posilam, medicated with Posilam.

IF YOU NEED A MEDICINE YOU SHOULD HAVE THE BEST

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says: "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention the Oakland Tribune. Large and medium size bottles for sale at all drug stores—Advertisement.

ANTI-URIC FOR RHEUMATISM

Nothing has ever been placed on the market for rheumatism that has given such good results and made as many friends as this great, herbal remedy.

Mrs. J. Schultz, 981 Folsom Street, San Francisco, will tell you of her experience with this remedy if you communicate with her.

ANTI-URIC

is for sale by The Owl Drug Company at all their stores and they will return your money if you are not satisfied.

Blood-Iron Phosphate For Weak, Thin Folks

Weak, thin, nervous people almost invariably owe their condition to lack of phosphate in the blood, and lack of iron in the blood. One of the richest and safest ways in which to make up the deficiency is to take with each meal a five-grain tablet of Blood-Iron Phosphate and Iron. Blood-Iron Phosphate, because it supplies iron to the blood as well as phosphate to the nervous system. People who have tried it say that one five-grain tablet taken with each meal quickly restores the depleted energy, enriches the blood, increases strength, vitality and enduranc. And those who are thin usually put on pounds of solid muscle, flesh in a short time. Inasmuch as the Blood-Iron Phosphate and Iron tablets are sold in all other drug stores, they are authorized to sell them.

Important—Blood-Iron Phosphate is sold only in original packages, containing enough for three weeks' treatment, at \$1.50 per package, only 50 cents a week—Advertisement.

Kidney and Bladder Trouble Cured

Telling of his experience with the Y. L. Chan medicine for kidney and bladder trouble, F. J. Alibi, of Twenty-eighth St., San Francisco, writes:

"I was troubled with my kidneys and bladder trouble for many years with distress on the stomach. I had consulted Dr. Chan and after a few treatments with his wonderful Chinese herbs I began to get relief and within a short time I was entirely well."

"I have known Dr. J. L. Chan to be thoroughly capable in his character and I have employed him as my family physician for a good many years."

DONORS TO MAKE CITY'S COUNT SHORT

Have you been counted yet in Oakland's census of a million population? If you have not, telephone the Oakland Chamber of Commerce, Oakland 1915, or call in person and your name and address will be taken and the oversight will be reported at once to the Donohoe supervisor of the census. Of course, you want to be included in the 1929 census, not only of your home city, but of the United States at large as well. This is a duty that every citizen owes to his country.

CENSUS COMMISSIONER, OAKLAND CHAMBER OF COMMERCE.
IRVING H. KAHN, Chairman.

Oakland's fifty thousand civically alien residents who daily commute to San Francisco are hampering the work of census enumerators. Such an extent that Census Supervisor C. L. Donohoe today said positively that it will be impossible to reach 250,000 for Oakland alone.

Indifference on the part of the Oakland commuters is making it impossible for the census officials to secure their count, he says, and although information in his hands does not prove that a concerted effort to have commuters counted in San Francisco is being made, it can be definitely said that the commuters are regularly avoiding the census takers.

EXCLUDED FROM HOMES.
"Every day we have cases where enumerators are shut out of houses and where persons refuse to give information to the census workers," Donohoe declared this morning. "Then we must send census inspectors to the houses and in all cases we have secured the information, but always at a loss of as much as \$3 to the Government in the increased cost of getting the count."

In the final days of the census count everything possible is being done to have the names of every person living in Oakland on the rolls of the census office. Workers who have completed enumeration districts are making daily canvasses of the hotels and rooming houses of the city for floating population and as many as 500 names a day are being added to the city's population in this way. Teamsters and sailors who stop in Oakland at the end of their runs are being secured by special workers who have been detailed by Donohoe to clean up on the work.

The count will be completed by Friday, completed as far as possible in the face of deliberate evasion of census workers by thousands of commuters whose names it is said to be very probable, could be found on the lists of San Francisco's population. Oakland will have more than 200,000 population, but it will fall far short of the expected 250,000 unless the commuting population shows more interest in the count and discontinues the hampering of the census takers.

Lack of sufficient help provided by Government appropriations has made it impossible for workers to be placed on the streets to train the San Francisco census takers to secure names. As many commuters are enumerated at their homes through their wives and without their knowing that they have been counted, the possibility of duplication is very great. Donohoe says, and in order to prevent counting the same names twice, a large amount of clerical work which is not provided for in the census organization would be entailed. The plan of putting census workers on the trains to enumerate Oakland commuters as San Franciscans was first discovered.

An appeal to citizens of Oakland who have not been counted at their homes to come to the census office in the Bacon building was made today by Donohoe in a last effort to boost the city's population as far above 200,000 as possible.

Funeral of Aged Sea Captain Held Today

The funeral of Captain John Nelson, old-time sea captain who died Sunday in Hayward at the age of 85, was held this afternoon from the family residence, 2118 Twenty-third avenue. He had been ill but a short time and died Sunday at the home of his daughter, Mrs. Emma Seffor, on the Alameda.

Captain Nelson was a native of Sweden. He leaves a widow, Anna Nelson, three children, Mrs. Seffor, Albert and Gus Nelson and a sister, Mrs. James Peterson.

Stenographer Cause Of Divorce Action

Causing indiscretion with a stenographer, Miss Avis Kivori, Mrs. Ida Ingraham this morning launched a suit for divorce against the stenographer, who is now in jail. The suit is the second brought by Mrs. Ingraham, the first having been directed against the late husband, a candidate for the State Legislature.

WILL TEACH SPEECH MAKING

A course in practical speech making, for men and women, will be taught by the American Association of Public Speakers, beginning Tuesday evening at 7:30 o'clock at the Hotel Oakland. This course will also give a general direction of university extension.

GROWING DEAF WITH HEAD NOISES?

TRY THIS

It is a growing epidemic of deafness and of head noises, and it is caused by a disease of the middle ear. It is easy to cure, and it is a disease that is spreading rapidly. It is a disease that is spreading rapidly. It is a disease that is spreading rapidly.

Committee to Ask Special Legislative Session for Exclusion of Asiatics

SAN FRANCISCO, Jan. 12.—(Preliminary plans for a campaign to effect if possible a special session of the legislature for the passage of measures to exclude Asiatics from residing or owning land in California and to prevent further Asiatic immigration here, were outlined at a meeting here today of the heads of organizations in the state favoring exclusion of Asiatics. Provision was made for the appointment of a committee consisting of the heads of all of these organizations to wait on the governor and demand a special session to consider this issue. If this is denied, the committee will then proceed to submit to the legislature at the November election, State Senator John M. Innan of Sacramento, chairman of the meeting, announced that the committee would be named in a few days.

A suggestion that the governor be picketed by proponents of exclusion in the campaign for an extra session was offered by William Kent, former Congressman.

V. S. McClatchy, publisher of the Sacramento Bee, said, in part: "I believe it is even possible to educate the governor so that he will concede to public opinion on this issue. The eventual remedies must come from the federal government, but they cannot come until Congress has been converted to our point of view. A special session of the legislature would be of immeasurable value in exciting widespread publicity and interest in the issue."

Fred F. Rebergall of San Francisco, secretary of the American Legion in California, but the motion providing for the appointment of a committee to wait on the governor. The 200 posts of the American Legion in California are heartily in favor of Asiatic Exclusion, he said.

New Cane Sugar Prices on Coast Same as in the East

The new retail cane sugar price, to be fixed tomorrow by the refiners for the Pacific Coast trade, is expected to be in the neighborhood of nineteen or twenty cents a pound. While the work of the price has been given out in advance, local grocers are of the opinion that the wholesale figure will be fifteen or sixteen cents and that a four-cent margin will obtain.

At the office of the Hawaiian Refining Company in San Francisco today it was said that the new figure will be based on the Cuban crop quotations in New York and will be no higher than prices quoted in the Eastern centers.

AMERICAN REFINING PRICE.
Dispatches from New York today say that the American Sugar Refining Company in that city has set for the wholesale price of its product a price of 15 cents a pound and that the retail price for the sugar will be 19 cents.

The company issued a statement explaining its figures and disclosing the fact that it has declined all exports until the sugar conditions in this country become easier. The statement reads:

"Following the custom of the trade in normal times," the statement said, "we are announcing an opening price on bulk granulated sugar refined from new crop raw sugar of 15 cents a pound f. o. b. refinery, less 2 per cent cash discount, based on the present market for new crop raw sugar. This means a net price to the wholesaler and manufacturer of less than 12 1/2 cents a pound."

DECLINE TO EXPORT.
"While we have been offered export business for 1929, we have declined all such offers, for we have declined our refining capacity for domestic business until sugar conditions in this country become easier. During 1919 we have delivered more sugar to the domestic trade than in several years. Since the start of the present sugar shortage last September we have delivered over 300,000,000 pounds of refined sugar to the domestic trade, being an average of 125,000,000 pounds a month. In December, the month of shortest supplies, we delivered over 32,000,000 pounds, and during the first twelve days of January we have delivered over 14,000,000 pounds."

WIFE PLEADS TO SAVE REPUTATION MORSE ENDORSES TRIBUNE PROTEST

Pleading with tears in her eyes, Judge A. E. St. Sure to not have read letters written to her by her husband, Judge A. E. St. Sure, today sought to preserve her reputation during her divorce suit today against William C. Boudin, a Berkeley city treasurer. The court finally acceded to her request and after himself reading the letters, which were the husband's attorney.

Answering his wife's charges of cruelty consisting of alleged beatings and the applying of crutches while intoxicated, Boudin charges his wife with frequenting cafes in San Francisco with other men and names in particular a man by the name of Parks and a sailor named Harry. Boudin alleges that while they were in the city, his wife purchased a Christmas tree, 1918, his wife purchased and charged a turkey to him which she prepared as a first dinner for Parks. He testified that the husband says, when they met at the Roosevelt hospital where his wife was ill.

In August of this year, says Boudin, his wife went to New York and later returned after promising to reform, but soon commenced keeping company with Harry, a sailor, and received a large amount of correspondence from men in New York which he referred to past intimate relations.

Both parties are fighting for the custody of two small children, a boy and a girl. The wife is asking for \$40 a month alimony. The family home is at 2237 Dwight Way, Berkeley. They were married at San Rafael on March 25, 1912.

Bureau Finds Places For Ex-Servicemen

The soldiers' and sailors' employment bureau, opened in the city hall as a successor to the community placement bureau, gave jobs to 75 former service men, placed 11 state of California service certificates and handled 14 cases where free notice service was given during the week ended January 10.

This was the first week of the bureau's operation, formed when the bureau of the Community Service was exhausted December 31. The Oakland Red Cross has taken up the work. Headquarters of the bureau have been removed to the same office, at 214 City Hall. The bureau's office has headquarters in the city hall, where it is now located. The bureau's office is now located in the city hall, where it is now located.

Other officers of the new organization are: William T. Taylor, secretary; and J. H. Williams, chief clerk. The new organization is now located in the city hall, where it is now located.

McClure, New Head Of S. F. News Letter

Frank McClure is president and general manager of a group of business men who have organized a new publication, the San Francisco News Letter, a weekly publication which will be published in the future. The new organization is now located in the city hall, where it is now located.

Other officers of the new organization are: William T. Taylor, secretary; and J. H. Williams, chief clerk. The new organization is now located in the city hall, where it is now located.

Alleged 'Reds' Ask Cases Be Continued

Arrested after Judge Jones' ruling, the alleged 'Reds' ask that their cases be continued.

FILE ANSWER IN FAIR SUIT FOR DAMAGES

Memories of the Panama-Pacific Exposition were revived today in the court of Judge Dudley Kinsell in the suit of Christian Schlake Jr. against Emmet V. MacConnell and the Consolidated Concessions Company for \$34,000 damages, in which fraud and misrepresentation is charged.

It is alleged by Schlake that the use of the name of the Panama-Pacific Exposition, represented to him that the Consolidated Concessions Company was solvent and would earn huge profits from numerous concessions on the exposition. On these representations, it is alleged, Schlake deeded the land in Sonoma county, valued at \$20,140 to the company in exchange for 1914 shares of preferred stock in the company.

In October, 1915, according to the complaint, Schlake discovered that the company was not solvent or free from indebtedness, but on the contrary a preferred claim against the company of \$204,000 was held by MacConnell and in addition the company was indebted to the extent of \$300,000. Due to this condition, it is alleged, the company was never able to pay Schlake any dividends.

The defendants have filed an answer and are contesting the suit by denying all the allegations. They claim that no misrepresentation was used and that it was expected that the company would earn dividends on the concessions held.

Pianist Was Once Bayonet Instructor

Following a considerable service in the army and navy, six Oakland boys have formed an orchestra of violin, piano, banjo, saxophone and drums, which has been engaged by the Hotel Oakland to provide music for the dinner dances there on Wednesday and Saturday evenings. Its leader, Paul McCarty, pianist, who was once a bayonet instructor and most of the others saw strenuous service. The others in the group are: Frank Moran, banjo; M. Strickfaden, saxophone; Richard ("Red") Plummer, saxophone; A. Jennings, violin; and "Bey," drums.

EASE THE PAINFUL RHEUMATIC TWINGE

Sloan's Liniment will bring comforting relief quickly.

NEVER breaks faith. Sloan's Liniment doesn't. Just penetrates without rubbing and eases the external pain and ache, rheumatic twinges, neuralgia, sciatica, lumbago, sprains, muscular bruises, sprains.

For 35 years it has gone ahead winning new friends, holding old ones, strengthening its reputation as the World's Liniment. Clean, effective in relieving the aches and pains, it can be relied upon to do its work promptly and surely. Don't be without a bottle another day—keep it handy.

Make It at Home and Save About \$1.50—Children Love to Take It.

Full Directions With Each 30-Cent Package.

For a real tonic and blood purifier, take a teaspoonful every night or every other night for at least three weeks.

A WINTER TONIC

Why is it that some people keep well while others get sick in winter? Thin blood and debility are the causes of colds and flu. When the blood is thin and there is oxygen starvation in the tissues of the body, poisons are retained that should be eliminated and there is a general weakness of the system. Rheumatism disappears when the blood is built up and does not recur if the blood is kept rich.

The after-effects of grip are never entirely removed. The blood is thin and the system is weak. It is a winter tonic that will build up the blood and give the system the strength to resist the winter colds and flu.

Dr. Williams' Pink Pills for Pale People will build up the blood and give the system the strength to resist the winter colds and flu.

POLICE HUNT FOR MISSING SEA CAPTAIN

John Engblom, 49 years old, a sea captain, who lived at 796 Ninth street, has been reported as missing to the police, and efforts are being made to learn Engblom's whereabouts and to ascertain the cause of his disappearance. He left his home in Oakland December 22, according to his wife, in order to look for an apartment in San Francisco. He has not returned since and no word has been heard concerning him.

His wife states that just before he left for San Francisco he drew \$400 from the bank for the purpose of doing some Christmas shopping and to pay advance rent on an apartment he intended to engage. No trace of him can be found in San Francisco, and the police suspect that foul play is at the bottom of his disappearance.

Engblom and his wife came to Oakland last year from Valparaiso, Chile, and Engblom intended, after a few months vacation ashore, to go to sea from San Francisco. His wife is unable to account for his disappearance and states that there was no family trouble which would cause him to leave home. The San Francisco police have been notified and state that a thorough investigation of the matter will be made in that city.

No remains of any pre-Roman tavern exist in England.

"Trust Service" for Big Business— a book for Business Men

BANKS must depend upon the business of the community for their existence. And in reciprocity banks can be of incalculable service to business.

The many ways the TRUST DEPARTMENT of this Bank can assist business and business men are described in a new book just published by us.

The book is beautifully bound in heavy board and cloth and will be a valuable addition to that little library on top of your desk. There are 41 pages of easy-reading print and 101 items of real interest in the index.

You may not realize how much this Trust Department can help you until you have read this book. Send for it today—telephone or come into the Bank and get a copy.

There is no charge—the book is free.

IMPRACTICABLE IDEAS.

Replying to a criticism in these columns of his plan for "stabilizing" the dollar, Professor Irving Fisher of Yale university wrote a letter to THE TRIBUNE, which was printed on this page on December 27, and in which the following paragraph appeared:

"The stabilization plan does not involve restoration of the depreciated dollar to any former par, but simply stabilization—at a just par to be determined by a judicial commission. The decision should be aimed to do justice to existing contractors, taking into consideration their average duration and the tendency of prices at the time of adoption.

"To avoid the difficulty of actually changing the weight of gold coins we would do away with gold coins and use simply paper certificates redeemable at any time in whatever amount of gold bullion is declared at that time to be a dollar."

In the earlier period of his agitation of the coinage, currency and price questions Professor Fisher advocated the changing of the weight of the gold dollar in order to keep the price level permanent. Instead of allowing the values of commodities to respond to the factors of production and consumption, supply and demand, he proposed to change the bullion weight of the gold dollar. He is not on record as advocating a dollar of one weight to pay for beets whose value had gone up and a dollar of another weight to pay for beans whose value had dropped. But his proposal was fantastic enough without that feat.

It appears now that he has modified his plan somewhat, which shows that he is not absolutely irreconcilable to the knowledge gained by further study and investigation. Therefore he is not hopeless. But his plan has become even more impracticable by the addition of his new ideas.

Professor Fisher now proposes to do away with gold coins altogether, possibly a surrender to the disposition of the employees of the federal mints against too much work. He would have paper certificates issued in substitution of gold coins, redeemable at any time in whatever amount of gold bullion is declared at that time to be a dollar. He probably imagines and would argue that the people would never present their certificates for redemption, thus saving the problem of handling bullion gold of irregular form and weight.

But in that he is mistaken. What would be the effect of placing the country on an exclusive paper currency basis? Even a college professor who has fallen under a great delusion on the money question ought to be able to answer that. But not only would Professor Fisher give us paper money exclusively, but he would give us a paper certificate of changeable and constantly changing gold value.

As is so often the case, the Yale student of the currency question has neglected to take account of the human equation. There are still among us those who cannot understand the logic of preferring the pledge of a thing to the thing itself. That the people would prefer a paper token of no certain value, but causing merely for an amount of gold bullion which a "judicial commission" might pronounce equal to a dollar, to the gold itself is unthinkable, though the commission might offer them the precious metal in the most inconvenient form imaginable—cubes, nuggets or dust.

Professor Fisher's proposal is to retrace the path of progress and go back five or six centuries on the tedious road of civilization. The Mongol regime in China, under the Great Khans, flooded that country with paper notes in order to get possession of all the gold and silver. After a while the Chinese threw the notes away and used iron discs as money. There have been other instances in which nations have tried to use money with a fictitious value only and each is an instance of disaster.

The world has advanced until all civilized nations have selected gold as the unchangeable yardstick of values, as the thermometer by which the effects of large or small production, heavy or light demand, or an inflated paper currency upon markets are measured. A paper token of money is good for its face value just so long as it actually represents so much metallic money of given fineness and weight obtainable in exchange upon demand. When this rule is violated the paper money depreciates and prices go up. Gold or silver coins, of a quality guaranteed by the gov-

ernment, are necessary to the integrity of this rule. Unless they are available for the redemption of paper currency when the people want them the paper currency becomes practically worthless. Students of finance and economics delve into the currency question and try to devise some way by which the vital and to them mysterious influence exerted by the precious metals can be overcome or ignored; then after a while they seek a much needed mental diversion or go crazy. Professor Fisher seems due to take up a diversion.

OUT OF SIBERIA.

Announcement has been made at Washington that the American expeditionary forces in Siberia are soon to be ordered home. The latter part of February is tentatively fixed for their departure. After the Americans come home affairs in Siberia will be under the undisputed domination of Japan. American railroad engineers and operatives who have been running the transsiberian railroad from Omsk to Harbin and Vladivostok will also relinquish their duties.

It is time the American forces came home. There is no longer any hope that their continued presence in Siberia will be useful. But it should be borne in mind that the American troops return with honor. They have acquitted themselves creditably under the most trying circumstances a military force was ever employed.

It is also well to dismiss from mind the lies uttered by pro-Germans and pro-Bolsheviks to the effect that the American expedition was sent into Siberia without provocation and without proper authority. When the troops were ordered to Vladivostok the war was on. The armistice had not been signed. The enemy, through released German and Austrian prisoners and Bolshevik confederates were advancing toward the Pacific Coast. It was imperative to the safety of the Allied cause that the enemy be not permitted to establish a Pacific base and with the exception of Japan the United States had more at stake in seeing that the Bolshevik forces of Germany did not reach the Pacific than any other Allied power.

The purpose which the interallied army—British, French, Japanese and American—entered Siberia to achieve were wholly proper. The Germans and Bolsheviks were kept out of the Pacific area.

The main fault with the employment of the Allied forces in Siberia was that they were not permitted to go far enough. The TRIBUNE has spoken of this before and has pointed out that it was the influence of the United States which imposed upon the Allied expedition a policy of watchful waiting, the attitude of a passive, and as far as possible, an unresisting witness to the conflict between the Russian friends of the Allies on the one side and the German and Russian enemies of the Allies on the other. Had the Allied forces frankly and energetically supported the anti-German forces in Siberia they might have come home with perfect safety a year ago.

But this was not permitted. The position of the Allies, including the American troops, became ambiguous and ineffective. Ultimately it became vulnerable to the attack of the enemy and Bolshevik propagandist in this country and in Europe. The troops were consigned to a waiting role in the worst country white men ever had to dwell in. Their duty has been harder to perform than that of any other soldiers in the war.

When the Americans come home Japan will be master of the Siberian situation. There is the basis of hope in that prospect. The Allies have done nothing to clear up that area and establish normal conditions of effective government. They have been obstacles to progress. Perhaps Japan, left alone, will do better. But it is greatly to be feared that the economic freedom, even the territorial integrity, of Siberia will be left in a selfish grip.

There is one man in the world who is unquestionably deserving of the highest honors in the gift of his countrymen. He is Premier Clemenceau of France. Clemenceau saw the Germans enter his country in 1870 and depart with their booty a year later. He saw them come again in 1914—for more booty. He saw them almost victorious and in the hour of deepest gloom assumed the leadership of France, revived the spirit of his countrymen, and drove the Germans out. He negotiated the treaty of peace, a treaty of reparation by Germany. He has seen the treaty ratified and its enforcement begun. Clemenceau can have the presidency of the French republic if he wants it. He will not be opposed. The master of France in her hour of peril, he is her first love in the hour of peace and safety.

Interstate Commerce Commission reports for the first ten months of 1919 show that gross revenues of the railroads for the period were \$1,235,000,000, as compared to \$2,255,000,000 for 1917, an increase at the rate of more than a billion dollars a year. But expenses went up from \$2,522,000,000 to \$2,756,000,000, or at the rate of nearly a billion and a half a year. The public paid the total bill, a tribute to the mismanagement of the government operators. It paid in higher charges for service and on the whole paid uncompensatingly. But the government, despite the increase of a billion dollars in gross revenue, could not make both ends meet and at the end of the year was \$548,000,000 behind in its obligations to the railroad owners. Still there are some persons who argue for government ownership.

NOTES and COMMENT

Through the milk boycott consumers have at least learned something. It is that a way has been found to head off profiteering vastly more efficacious than appointing a commission to insert a probe.

The rare specimen has been found who refuses to answer the questions of the census man. What theory he follows in such refusal does not appear. Perhaps it is a belief that he is spitting the United States of America in this withholding information about himself. There is a class of persons who are obsessed by the idea that such information is the most vital there is.

The International Association of Clothing Designers has met and can give no assurance that men's apparel will be cheaper. In fact, further increase in prices is predicted. No reason is given for this, and it is even stated that cloth is more plentiful. Illustrating again that there doesn't have to be a reason for boosting prices.

The president of the Chicago Crime Commission approves of the hanging of culprits as a spectacle for the surviving prisoners. He says that it impresses them with what is in store for those who are convicted of wantonly taking life. That argument can be used in favor of reopening these events to the general public. There must be some yet at large who need the lesson.

The "ad" that solicits 400 barrels of whisky for export, for which there is a willingness to pay \$1 a gallon, is sure to cause widespread perplexity. One dollar a gallon! At such a rate all there is in Kentucky would find a hurried market.

Whatever is proposed there is a cast of character that is apt to be. Senator Borah describes the explosion of Victor Berger, and Senator Thomas thinks the socialists will not like it. Thus do the Berbers get encouragement.

In pardoning Ruef the Governor denatures the clemency with the reminder that it is not to be supposed that there is any doubt as to the justice of the sentence that Ruef has served. The Governor seems to have the idea that it won't do for the pardoned to feel too pleased over his good fortune.

A great deal of solicitude is sometimes shown for seditionists. Fear is expressed that those who find themselves in the meshes of the law will not get an even break. The Governor of New York is assured that the suspended legislators will get a "fair trial." Generally there appears to be such fear of their being used unjustly that they fail to receive what is coming to them. Lackadaisical treatment has no doubt emboldened them.

Now that the law regulating real estate agents and transactions is in effect some features of the business that have hitherto gone as they pleased will come under regular rules. This will be salutary for responsible agents and decidedly so for responsible owners.

Three hundred murders and 10,000 crimes in Chicago during 1919 leads the president of the Crime Commission to say that "we have been plying criminals with flowers, libelous, and cold running, social visiting parties and pardons until what was previously intended as punishment is no longer punishment, but vacation." He lays himself liable to a charge of being a reactionnaire.

SPIRIT of the STATE PRESS

H. W. Stultard of the United States bureau of crop estimates is already making inquiries about the estimated acreage of 15 to 20 per cent higher rate for material than the cement companies charge the State. Go to it, Yolo. It's the only way. You will take additional pride in your roads if built from your own products—Dillon Tribune.

The great demand for orchards or land suitable for orchards in this community, and the steady rise in price of such property during the past three years, has caused many people to wonder when the "peach" will be shared. Orchards and land suitable for orchards have in a number of cases changed hands two or three times within the past six months, recent sales being at an advance of from 25 to 50 per cent over the prices of a few years ago. Some of the prices are as high as \$1000 to \$1500 or \$1700, and usually find a ready sale—Hollister Free Press.

The great demand for orchards or land suitable for orchards in this community, and the steady rise in price of such property during the past three years, has caused many people to wonder when the "peach" will be shared. THE OUTSIDE GUEST.

Winters there, in the lonesome night—
Trotter, old and weary,
As he lay in the fireless night,
For the stars are cold and dreary.
A shiver in the old time way,
From the shadows, slow advance;
He wants to come where the fire
dreams stay—
He's a great old chap for dancin',
—Atlanta Constitution.

SAME OLD BURR

IRKUTSK

"The misfortunes of war have just caught up to Irkutsk," says a bulletin from the Washington headquarters of the National Geographic Society which describes the recent capital of the Kolchak government, now reported to be captured by the Bolsheviks.

"Forty hours from anywhere, figuratively, five days from Petrograd, literally, in the best of times; farther, in fact, from the Russian capital than is San Francisco from New York, this Siberian metropolis was too far removed to suffer more than pin pricks from the World War, but now is engulfed in its turbulent wake.

"Not only is Irkutsk a remote city of a sleeping giant country, but it has been an isolation ward for Russia's political exiles. From such a thistle the traveler usually did not expect much—and was agreeably surprised. Until the storm broke by the Reds a few days ago Irkutsk was a thriving, well built, modern city.

"True, it experienced a few scratches in February, 1918, but these could not compare with the great fire of 1879, which did irreparable damage to archives contained in museum, library, government buildings, and the Siberian branch of the Russian Geographical Society.

"But, in rebuilding, Irkutsk was the Baltimore of Siberia, and when General A. W. Greber visited it some thirty years later he wrote:

"Among Siberian cities Irkutsk is noted for its churches, orphanages, hospitals, schools, observatories, and museums. It is a city of imposing buildings, beautiful homes, and is given to lavish hospitality, while its extended business operations are supplemented by all modern municipal equipments, including telephone and efficient fire service.

"It must be added that it has in summer nearly impassable streets, that the prevalence of unpunished crimes is notorious, while it is said by free-speaking Russians that the inefficiency of its police is only surpassed by the corruption of its officials.

Irkutsk is the capital of a province of the same name which has a population of about 1,000,000. The city's population is about that of Omaha, Nebraska. Lake Baikal, the southern shore of which is 44 miles east of the city, which is on the right bank of the Angara river. Thus Baikal, deepest lake in the world, and largest, (except for our own Great Lakes and Victoria Nyanza and Tanganyika, in Africa) with its five tributary rivers, affords unusual inland transportation facilities. The Angara, a principal outlet of the lake, leads to the Yenisey basin, with its 10,000 miles of navigable waterway.

"Irkutsk had its beginning from the station established there in 1852 for collection of a fur tax from the Buriats. This curious people still dwell in the Baikal lake region. In them, it would seem, the ethnologist can find the skin to the herdsman of our own western plains; their appearance, with shaved heads and pigtail, like that of the Chinese. In winter they dress like Eskimos, with sheepskins and furs; their summer attire is the oriental gown of silk and cotton.

"The horses the Buriats raise, figure in the religion they cling to most tenaciously. This religion is akin to the favorite creed of the owner's grave. The less faithful among the herd, though, have been known to let an animal with a tether so frayed that the horse soon broke away to join the herd.

"Irkutsk is on the Trans-Siberian railway, a little more than five days journey east of Moscow in peace times.

"The Cathedral of the Virgin of

Kazan is one of the most conspicuous edifices in Irkutsk. Its five domes and detached belfry immediately attracting the eye of the visitor.

"One of the peculiar customs which the traveler encountered at Irkutsk before the war was the closing of the railway ticket office for the sale of tickets two days prior to the departure of a train. He could never decide to take a trip to Petrograd (3732 miles), to Moscow (3384 miles) or to Vladivostok (2608 miles) 'on the spur of the moment.'"

DON'T BE TOO EXTRAVAGANT.

A statement in a tobacco store makes the statement that the firm sells more 15-cent cigars than any other grade. And this store is not patronized especially by the well-to-do.

Many people are now gratifying their liking for costly things. This is due largely to better pay and to the wave of extravagance which is sweeping the world. It is something which will probably run its course in a year or two. There is nothing to be done about it, and there is no particular reason to worry and predict an economic collapse.

A new standard of values has been created, and this must not be lost sight of in looking at the situation. Nevertheless, prolonged extravagance is not a good thing for anyone, and when too many people have the habit it spells trouble for the country. Undoubtedly thousands of citizens who have done well financially since the war began, and are still doing well, do not keep in mind that conditions might change and their opportunity to save pass away. The wise man or woman puts aside something for the future.

The nation that gets ahead is the one in which individuals collectively practice thrift. Don't let the exuberance of some dazzle you and lead you into wasting what you may need later on.—Brooklyn Standard Union.

THE EDITH CAVELL MEMORIAL.

Considerable progress has already been made with the construction of the Edith Cavell Memorial. Great slabs of Cornish granite have been placed in position, rising above the level of the boarding, and on that on which the statue will stand may be seen engraved the words "Edith Cavell, Brussels." It would be difficult to find a finer site for the memorial than this, at the point where St. Martin's Lane and Charing Cross Road join in a downward sweep towards the Strand and Whitehall. Round the island will swing, as now, cross-tides, of traffic, in sharp contrast with the quiet, lonely figure, standing impressive in its dignified simplicity and overtopped by a majestic representation of the Mother of Humanity. Seen from a distance the memorial will give the impression of a high-built cross, beneath which stands, facing the whirl and roar of Charing Cross, the statue of the English woman who risked and gave her life for others.—Westminster Gazette.

THE NEW POOR.

A happy phrase has been coined by the Canadian Minister of Agriculture. Announcing a project for bringing settlers to Ontario, he says inducements will be offered the "new poor" in England—those impoverished by high cost of living.

The Canadian official has real authority to offer the settlers from demand or opportunity that exists in Ontario or other parts of Canada with "new poor" from the United States and save transatlantic transportation. The poor we have always had with us; and if being hit by high living cost to the K. O. stage puts one in the new poor class, we can offer Canada, any where from ten to twenty millions from which to select the desired population. But the inducements must be strong. No merely affable invitation will serve, and an appeal to our more or less manifested admiration for our northern neighbors will not draw us across the border.

And moreover, we will insist upon having clearly explained to us the present and considerable movement in northern Ontario to secede from the province and set up a separate provincial government. Canadian newspapers tell us the secession project is unimportant, but it is important enough to disturb the equanimity of the "Government and to arouse the suspicion in our minds that we have misapprehended the state of peace and administrative efficiency which we had been led to believe always existed across the boundary. Perhaps, after all, the new poor of England would be the more satisfied and the more satisfied new population for the fertile fields of Ontario which the Minister of Agriculture seeks to have brought under cultivation.—Seattle Post-Intelligencer.

AT PEACE.

Temporarily at least, labor and capital are very well satisfied. Both are getting handsome returns and the divisions of profits is accepted for the time being, as reasonably fair. There was never a better time to keep quiet, especially the theorists and reformers, and allow labor and its employers to work out their own salvation—Fibre and Fabric.

POLICE STOP AUTO BANDIT; USE SHOTGUN

SAN FRANCISCO, Jan. 13.—An automobile mechanic's plunge into the wave of crime ended in a battle with the San Francisco shotgun squad last night in the thick and captured, after successfully holding up the Saddle Rock restaurant at Santa Clara. He may die.

The feat of the mechanic, who gave his name as John Hoover, and said he lived in this city, was the most sensational episode in a series of automobile holdups in the last twenty-four hours.

PATRONS STOOD UP.
According to the police, Hoover began his whirl of banditry at San Jose, where he stole an automobile. Then, they say, he donned a false mustache and beard and posted for Santa Clara at high speed.

Entering the restaurant, he pointed a gun at John Fitzgerald, a waiter, and obtained \$13 from the cash register. He fired one shot at the cafe. Hoover lined them against the wall and searched them.

He made his escape in the stolen machine but was caught at San Bruno by Policemen Fred Milliken and Fred Lousey of the shotgun detail. Hoover stopped his car and threw away a desperate battle before he was able to squirm from their clutches and run to safety.

More men reported that they had been victimized by "limousine" bandits, whose system is to stop their machine on the street and force the victims to take a ride. When they get them to a safe place, they rob them.

Last Shipment of Beets at Refinery
The last of the big crop of beets grown on the new Montezuma Slough property at Bechtold and Jefferson, has been shipped to the sugar refinery at Alameda, Alameda county, according to reports from the traffic department of the Oakland, Antioch & Eastern Railway today. This is the second season for the new beet section and the shipment this year amounted to 3500 tons of which 2500 came from Jefferson and 1000 from Bechtold.

Plans are being put forward to double the acreage in beets next year, as the market, it is said, will be good for this product for many years to come. According to reports beets from the new district are large and rich in sugar. The yield has been at the rate of about ten tons to the acre.

GET COUNTED—MAKE IT QUARTER OF A MILLION

Secrets of 'Gasoline Row' To Be Revealed When Big Show Opens Doors Monday

With the Oakland Auto Show, which will throw open its doors to an eager and expectant public on Monday afternoon, January 19, at the Municipal Auditorium, but six days away, local motor car dealers are unusually busy planning and promoting their respective post-war creations. That good fellowship feeling of rivalry which prevails on every really progressive auto row is as high as it has been in a long time, and each exhibitor intends to display there are plenty of rumors, but when the dealers are questioned as to their verity, they usually look wise, affect an owl's hemlock and say, "Well, of course we aren't tipping our competitors off to what we have in store for them, but just wait until next Monday afternoon." Like the refrain of a popular melody they assure us that "we'll be surprised."

KNUTSON LESS SECRETIVE.
However, Harold Knutson, now manager of the Willits-Oakland Pacific Company, is a little less secretive than his fellow tradesmen along "gasoline row" and announces that the new "Knightr" model—the first to be seen on the Pacific Coast, which but recently arrived in Oakland—will walk away with the honors at the show. The arrival of the "Knightr" post-war creation, he says, is not only of special interest to the general public, but also to the dealers and sub-dealers of the city, who have not yet had an opportunity to witness the beauty of the new car.

Knutson has notified all of his Northern California retail representatives that the "Knightr" will make its initial appearance at the Oakland show, and from Redding to Fresno reports are coming in which indicate that all the dealers representing the Willits-Oakland products will flock to the show to gaze upon the new car. This is apparently the case among many local distributors, and Oakland no doubt will be crowded with out-of-town motor car dealers during the week of the show.

ILLUMINATIVE SCHEME.
Although much has been said in previous articles about the beauty of the decorations, too much stress cannot be laid upon this feature of the forthcoming event. Today the illuminative scheme is being installed in the auditorium under the direction of Leon Voyer, illuminative engineer of the General Electric Company. Voyer is an authority on electrical subjects and at one time was a student of D'Arcy Ryan, who is to the electrical world what Paderewski is to lovers of music.

Voyer it was who had charge of illuminating the buildings and grounds of the exposition in 1915 at San Francisco, and Voyer assisted him. Voyer will work in conjunction with Charles Francis Rosa, famous decorator, who is converting the auditorium into a Maxfield Parrish dream palace.

It is being stated that the display of the latest Auto Dealers' Division of Alameda County Auto Trades Association, which is a unit of the California Auto Trade Association, of the cars of the latter are focused on Oakland and here show. Various local units from adjacent cities will travel to Oakland and attend the show, and yesterday Bob Marland, manager of the event, received a communication from the Santa Rosa association stating that they would attend the Oakland show ensemble.

Never before in Western automotive history has there been so much interest aroused in an automobile exhibition and from the progress already made by these in charge it is safe to predict that the spectators will not be disappointed.

GOOD SPIRIT PREVAILS.
Manifesting the spirit with which local business men are backing the show, today's meeting of the Oakland Ad. Club at the Hotel Oakland was turned over to the motor car dealers. "Bob" Marland addressed the gathering upon "The Benefits Derived From An Auto Show" by Oakland. An entertaining speaker, he sent everyone away with the feeling that the Oakland show will be the "best in the west," as he so aptly put it.

The auto men's golf tournament, which will be held during the progress of the show, has created a lot of comment among those interested in the popular sport along auto row. Wagers are being made as to who will win the trophies being put up by leading business firms, and Charlie Burman, Oakland Six dealer, who is chairman of the committee arranging the matches for the tournament, is afraid that there will be more entrants than he can take care of.

Avalanches Wipe Out Villages in Alpines
BY UNITED PRESS
LEAVEN WIRE TO TRENTON.
ROME, Jan. 11.—Several villages in the Alpine regions have been wiped out by avalanches, which followed severe storms in this district, according to despatches here today.

In the province of Piedmont, along the Swiss frontier, an avalanche smothered the village of Demonte. Workers so far had recovered six bodies, the despatch said. Other despatches reported destruction of the villages of Verbania and Limone, but said the populations were warned and fled before the avalanche struck.

To the north near Aosta, an avalanche swept down the valley at night, burying one house in which seven people were sleeping.

Plan Enormous Film City in Contra Costa
A thousand acres of wooded slopes in the Contra Costa foothills known as the "Country Club," have been purchased as a setting for film plays to be made by a new corporation, the Diana Motion Picture Company of Los Angeles, Loraine Johnson, who is president and director-general of the company, is a former leading man at the Alcazar Theater in San Francisco. Crane Wilbur, actor and playwright, is first vice-president, and other officers include Edward Cozen, second vice-president, and Judge Lewis R. Works, secretary and treasurer.

G.O.P. LEADER TO BE GIVEN BIG BANQUET

WILLIAM HAYES, Republican national chairman, was the center of a group of western Republicans all day today who meant to make Hayes' visit count. The conferences of the party were all informal and had to do with the program for the party will follow in the western states during the coming campaign.

In a more general way this program will be considered as a banquet to be given this evening in Hayes' honor. Among those at the speakers' table will be Chairman Hayes, Governor William D. Stephens, Mayor James Rolph, Hays Ben-Jamin, Miss Mary Garrett Hays, Mrs. John C. South, Mrs. Margaret Hill McCarter, Mrs. Josephine Corliss Preston, Mrs. C. A. Sever and Mrs. George J. Beckwith, members of the Hays party. Carnahan, National Committee Chairman Sam Perkins of Washington, Ralph Williams of Oregon, John W. Hart of Idaho, Albert Glazer, California Republican vice-chairman of the Republican State Committee, Mrs. Edward Hays, member of the National Republican Women's Council of Oregon, and Mrs. Sidney Ehrman, vice-chairman of the California Ways and Means Committee.

WILL ORGANIZE WOMEN.
One of the purposes of his visit, according to Hays, is to obtain the best plans for organizing women voters. Ideas developed in the west, where equal suffrage has been in the past as a year or two, the chairman said.

State delegations had heard today talks today with Hays, Miss Mary Garrett Hays, chairman of the executive committee of the women's division of the Republicans, Mrs. John C. South and others in the party, which is holding here its third regional conference. Chicago and Denver already have been visited in similar fashion.

Hays will leave tomorrow night, it was stated, for Reno. Before his departure it is expected he will make public the personnel of a committee of about sixty representative men and women to be known as the committee on policies and platform of the Republican national committee. This body will make recommendations to the resolutions committee at the national convention. In this way, it is predicted, a platform representing the best thought of the party can be drafted.

SESSION AT PALACE.
The afternoon session at the Palace Hotel yesterday is believed to have been a very successful one so far as the part to be played by women of California in the coming campaign is concerned. Miss Mary Garrett Hays, chairman of the women's division of the national committee, presided. Chairman Hays, State Chairman Ray Benjamin, Mrs. Margaret Hill McCarter, Mrs. John C. South and Mrs. Josephine Corliss Preston were other speakers. The three last are members of the women's party which is accompanying Hays.

AID G.O.P. LEADER.
State Chairman Samuel A. Walker reported from Washington, whence another speaker was Mrs. J. H. Mendelhall, Oregon, Arizona and Nevada were similarly represented. The ways and means committee of the six western states, which Hays afterwards planned a drive for campaign funds to be conducted somewhat in the manner of the Liberty Loan campaign.

Mrs. William Hayes wanted a delegation of women which waited upon Hays with a plea that he use his influence to secure suffrage amendment ratification in states where it has not yet been adopted. Hays explained he had already made this one of his chief interests, and proposed to continue doing so.

Chairman Hays confirmed an exchange of telegrams between himself and Secretary of the Treasury Carter Glass regarding charges by Hays that the Democratic national

Clearance of Cherry's Winter Stock of Women's Apparel
CHERRY CHAT
The magnitude of the task even can only be so suggested. It is impossible to fully impress upon you the importance of the savings and the allurements of the fashions—these are things which you must learn for yourself by coming in and seeing the great stock of high grade apparel and observing the exceptional quality and good style of every garment.

On top of all the special values offered, Cherry's popular system of selling on terms makes an added attraction that is irresistible.

COOPERATION IS PLEDGED IN H.C.L. BATTLE

Principled by John Alwood, general assistant to Attorney General Palmer, for their war on bread and milk prices; assured by District Attorney Ezra Decoto that he would co-operate to break combines in restraint of trade and encouraged by their own act of ratifying a state organization, members of Housewives' Leagues of Oakland, Berkeley, Alameda and Richmond expressed increased confidence today as to the outcome of their battle against the high cost of living.

PLAINER LIVING URGED.
The mass meeting in the city hall yesterday afternoon was addressed by Alwood, who decried extravagance and urged plainer living as one method of hitting the profiteer. He declared the matter of public unrest to be urgent.

A communication will be forwarded to the federal authorities from the Oakland Housewives' League through the city council requesting that more than the allotted number of government food-stuffs be assigned to Oakland.

CO-OPERATION PLEDGED.
Mrs. L. C. Grasser, president of the Oakland League, presided at yesterday's meeting. The program was arranged by Mrs. H. J. F. Edwards, Frederick and Louise; two sisters, Mrs. Thomas P. Hogan and Mrs. Mollie Phelps, of Alameda; and two brothers, James E. Monahan and Thomas Monahan of San Jose. The pall bearers were: John Chute, Thomas Kelly, J. R. Neylan, Con Keefe, C. J. Harrington, and A. M. Fitzpatrick.

Oakland Police Hold Man Wanted in Fresno
Congratulations have been received by Acting Captain of Inspectors Lou Agnew and the Oakland police department from the Fresno authorities on the capture of Russell Frye, a barber, who was arrested yesterday. Frye was taken into custody on suspicion.

At the police station he was recognized as a man who was wanted in Fresno for the theft of an automobile.

Old Steinman Block Is Swept by Flames
The Steinman block, an old structure of two floors at San Pablo avenue and Marshall street, was partly destroyed by fire yesterday afternoon. The origin of the flames is not known. The Golden Gate cafeteria on the first floor was considerably damaged by smoke and water. Most of the living rooms in a lodging house on the second floor were gutted.

committee was utilizing lists of Liberty Loan subscribers as a mailing list for campaign literature. He added:

"I have renewed my suggestion that the secretary make an investigation into the alleged action of the Democratic national committee in drawing drafts on bankers in whose banks government funds have been deposited and wiring such bankers that such drafts had already been drawn."

MILLS COLLEGE WILL INITIATE SERVICE SCHOOL

Dedicated to the education of its alumnae and friends, Mills College on January 23 will open on its campus the first college "Service school" west of the Mississippi. For three days each academic department will be open for inspection as well as all phases of equipment and organization. Lectures will be given on the growth, maintenance and possibilities of the college, and amusement features will be provided. The school is to serve as an introduction to an endowment campaign to be launched by the board of trustees. Many alumnae have already made reservations and the reunion is expected to be a big event in the college year.

Students and faculty of the college tomorrow will join in the nationwide straw vote, among college men and women, upon treaty and league of nation's ratification.

Funeral Services Held for Mrs. E. Kelley
Funeral services for Mrs. Honoring Kelley, wife of Edward Kelley, of 36 Randolph avenue, were held Friday afternoon at St. Leo's church on Piedmont avenue. Interment was made at St. Mary's cemetery. Mrs. Kelley was a native of San Jose and a member of a pioneer family of Santa Clara county. She was a graduate of the College of Notre Dame and the State Normal school of San Jose. Besides her husband, she is survived by seven children, Mrs. James Honoring Zacher, Edward, Frederick and Louise; two sisters, Mrs. Thomas P. Hogan and Mrs. Mollie Phelps, of Alameda; and two brothers, James E. Monahan and Thomas Monahan of San Jose. The pall bearers were: John Chute, Thomas Kelly, J. R. Neylan, Con Keefe, C. J. Harrington, and A. M. Fitzpatrick.

For a few cents you can get a handy tin box of genuine "Bayer Tablets of Aspirin," containing 12 tablets. Druggists also sell larger "Bayer" packages. Aspirin is the trademark of Bayer Manufacturing of Monroeville, Pa., U.S.A.

These paintings on the installment plan, one year to pay. C. A. LANDER, 2025 12th ave., Oakland, Cal. Phone Merritt 3145.

SUSPECTS IN
GIRL DEATH
ARE WATCHED

MODESTO, Cal., Jan. 12.—Arrests are expected shortly in the mystery death of 19-year-old Mayme Helm, who was found dead yesterday in a room in a hotel at Waterford, a small town twelve miles east of Modesto.

"It is the belief of the coroner and Sheriff Dallas that the girl was operated upon and that she died from an overdose of chloroform," Romeo J. Paslaqua, the Modesto business man involved in the case, was given a rigid examination by the district attorney last night, but he insists that he knows nothing about the case.

It is expected that the strength of the girl, which was sent to Stockton for analysis, will show the cause of death. In the meantime all connected with the case are being closely watched by officers.

PROF. HURWITZ DIES.
NEW YORK, Jan. 12.—Professor T. P. Hurwitz, founder of the Jewish forum and the Society of Jewish Academics, died here yesterday. He was widely known as a Hebrew scholar and philologist and as a teacher.

WEALTH FLOWS
TO HINDENBURG
FROM WRITINGS

BERLIN, Jan. 12.—Field Marshal von Hindenburg bids fair to become a millionaire from his writings, according to the new Berlin Gazette. It is reported that he has sold some of his works in America for \$12,000 which, at present exchange, would amount to about 2,000,000 marks. The newspaper adds this comment: "The German army leaders understand the pound and dollar reckoning better than they did the 'V'-hundred chances, the strength of the American army and the American tanks."

Mrs. Tabor Repudiates
Charge Against Virgo

PAV PAW, Mich., Jan. 12.—Mrs. Sarah Tabor, held on a charge of murder in connection with the death of her daughter, Maud Tabor Virgo, has repudiated a signed statement she made several weeks ago which charged her son-in-law, Joseph C. Virgo, with responsibility for her daughter's death.

Mrs. Tabor declared she told the truth on the witness stand at the coroner's inquest when she said Mrs. Virgo died in her arms from an overdose of chloroform, self-administered, to relieve her pain from asthma.

In the statement she repudiates, the 50-year-old woman declared Virgo had performed an illegal operation upon his wife.

"SYRUP OF FIGS"
CHILD'S LAXATIVE

Look at Tongue! Remove
Poisons from Stomach,

Ends Smuggled Coughs
in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It is very easily prepared, and really there is nothing better for coughs.

Into a pint bottle, put 2 cups of Epsom salt, 1 cup of molasses, 1 cup of sugar, 1 cup of water. Boil for 10 minutes. Strain through a cloth. Add 1 cup of lemon juice. You can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the cure will be refunded. Two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps the child quiet, and tastes pleasant. Children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pine is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments.

To avoid disappointment, ask your druggist for "25¢ ounces of Pine" with directions and don't accept anything else. Guaranteed to give absolute satisfaction, or money refunded. The Pine Co., Ft. Wayne, Ind.

Playground
News

The cold, crisp air and Golden sunshine that has ushered in the new year has made hiking popular on the playgrounds and many groups have taken advantage of the enticing weather to make trips to the hills under the supervision of playground directors. One of the most enjoyable of these was the hike to Campfire Girls of De Fremery Playground on Saturday. Armed with an ample luncheon, the girls met on the steps of the hall and then started for Wild Cat Canyon. Those who made up the party were Louise McVesey, Eva Ruff, Stella Anderson, Helen McVesey, and others.

Monday afternoon, Prescott School Playground was the scene of a double basketball contest when the 90 and 110-pound teams from the San Pablo Playground in Berkeley visited the grounds. The 110-pound team was closely contested, resulting in a victory for the visitors with a score of 29 to 26.

Wednesday, the girls from Longview School Playground met at Poplar Street Playground for friendly all-around contests and general games. The girls from the Longview School Playground took part in the various games that consisted of curtain ball, ball, kick ball and square relays. The Longview girls were winners in curtain ball and the relays and the Poplar girls won in the kick ball and ball games.

The Jolly Jinks Club of Hawthorne School entertained the girls from Alameda Playground with a delightful party on Tuesday. The little club was transformed into a gay den of welcome with bright paper flowers draped over the curtains and leopards from a large Japanese umbrella hung from the center of the room. Refreshments were served and the afternoon passed in games and contests. A skating contest was the main feature of the entertainment. The members of the Jolly Jinks Club are: Peggy Austin, Marian Macey, Lucille Dutcher, Frances Gibson, Evelyn Olson, Mildred Le Valley, Florence Dean, Irma Anderson, Alice Louise, Louise Johnson, Clara Marcus, Dora De Lany, Celia Marcus, Ruth Thompson, Marietta Maskins, Amy Durant.

A choral society has been organized at Golden Gate Playground and held its first meeting in the playground club house on Thursday evening. It is planned to prepare several programs of part songs to incorporate in the various plays and festivals on the playgrounds.

The patrons of Alameda Playground gave a dance in Mutual Hall on Friday evening that was enjoyed by one hundred and twenty-five young people.

The Sleepy Hollow Club of Alameda Playground held their regular meeting on Monday with an attendance of twenty-two small members. Games and fairy tales were the order of the day.

The Eastbay section was one of the subjects Mr. Joseph D. Gaine spoke upon at the annual meeting of the Oakland Chamber of Commerce.

The increase of manufacturing industries carries with it a greater demand on hospital facilities.

Our hospital development is not keeping pace with the Eastbay growth.

It is to your interest to help our project, for your change of location on hospital facilities, with each factory additional.

SIBERIAN POLICY
OF U. S. IN DOUBT

WASHINGTON, Jan. 12.—America's policy in Siberia will be announced by the State Department in a few days, it was learned today.

The original purpose of American forces in Siberia was the withdrawal of Czech-Slovak troops, which was accomplished. This Czech-Slovak troops are being gradually withdrawn and it is possible that the American troops will be taken from Siberia, unless other reasons for their maintenance there arise.

Secretary of War Baker stated that there is a very important reason for keeping American troops in Siberia, and that is the maintenance of the trans-Siberian railroad. American troops have been largely responsible for keeping this road in service, and according to Secretary Baker, if the troops are withdrawn the railway will probably cease to function and Siberian transportation will be cut up, leaving the anti-Bolshevik Allied forces there in great difficulties. If American troops are kept in Siberia to continue the operation of the railroad other troops must be sent there for the protection of the railroad troops.

Assassins of Bowles
And Roney Arrested

MEXICO CITY, Jan. 12.—Three persons were arrested here today, Earl Bowles and J. Roney, American men killed near Fort Lohos early this month, have been arrested, according to a report from Colonel Carlos Orozco, chief of operations in the Tampico district. Others implicated in the tragedy, he reported, will be apprehended shortly. The report says the American consul at Tampico has expressed satisfaction at the efforts of the federal forces to punish offenders there.

Berlin Paper Thanks
Spain for Famine Aid

LONDON, Jan. 12.—Berlin newspaper says a wire message expresses thanks at the relief for the starving German and Austrian children begun in Spain on a large scale as a result of the Pope's appeal.

NEW MALADY IN
KANSAS Baffles
MEDICAL SKILL

KANSAS CITY, Jan. 12.—Whether a mysterious intestinal malady which has appeared in Kansas and Oklahoma exists in other communities of the southwest was a matter for much speculation here today. Meanwhile officials are making efforts to identify the disease and employ means for checking its spread.

Topeka, Kan., and Muskogee, Okla., apparently are the worst sufferers. At Topeka, doctors here say 500 cases have been reported and unofficial estimates place the number at 1000. Many school children are among those ill there. At Muskogee, it is said, there are 400 cases. No fatalities are known to have occurred at either place and the death list from the malady remained at four, all at Skiatook, the Oklahoma town where it was first noted.

Some physicians expressed the belief that the malady is a form of dysentery, while others were of the opinion it is a gastric form of influenza.

Boys Who Broke Jail
At Oroville Captured

STOCKTON, Jan. 12.—Four boys who made their escape from the jail at Oroville Sunday by removing a number of bricks in one of the walls were arrested here last night. They had been found guilty of stealing an auto in Oroville. They are each 18 years old and are under sentence of three years each in the Fresno reform school. They make eight escapes from those caught here in the past two weeks. They are known under the following names: William M. Baker, alias John M. Baker; E. J. Johnson, alias J. S. Slade; Jim Davidson, alias George Snell; and Joe Ryan, alias George A. Lyon.

Gibson's Estate Is
Valued at \$395,958

The estate of Houd De Witt Gibson, who died intestate, left as his only heirs his only son, H. H. Gibson, his father and probate court by Attorney Beverly L. Hodgehead of San Francisco. The inheritance tax is placed at \$18,341, as administrator.

Children Cry for Fletcher's
CASTORIA

The Kind You Have Always Bought has borne the signature of Dr. H. H. Fletcher, and has been made under his personal supervision for over 60 years. Allow no one to deceive you in this. Counterfeits, imitations and "just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substance for Castor Oil, Paregoric, Drops and Soothing Syrup. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

Aviator "Pinched" for Having Muffler Open
 COEUR D'ALENE, Ida., Jan. 12.—Aviator Foster Russell of Spokane, was arrested here late yesterday on charges of operating his ship over the city with the muffler open and with scattering handbills from the air within the city limits. He was released on his word to appear for trial.

SLEUTHS TO GUARD BOOZE IN CALIFORNIA

To guard over the liquor supplies of the state in the three more days of war-time prohibition before the prohibition amendment goes into effect fifty detectives have been sworn in as deputies in the office of Justus S. Wardell, collector of internal revenue for this district. The men are being assigned to duty by Chief Field Deputy W. G. Walker. Both day and night squads of revenue agents are watching saloons and guarding warehouses of both sides of the law to see that liquor is illegally sold or any of that which is supposed to be exported by January 16 is diverted to other uses. Several revenue agents have gone to Fresno and Santa Rosa where large quantities of liquor are stored. The fifty newly sworn detectives will only serve until the 16th when W. A. Kelly, prohibition officer for the state, takes charge. Kelly left today for Los Angeles to organize his force of workers in that district. A. T. Mallen, special representative of the commissioner of internal revenue in San Francisco, to aid in the organization of the department of revenue of the office of Collector of Internal Revenue Justus Wardell. The following appointments have been made: W. C. McCarthy, head of the general division of the internal revenue bureau, appointed chief clerk. L. J. Snavey, placed in charge of miscellaneous taxes. E. T. Neitherton, assigned to the sales division. The new office which will be devoted to auditing income tax returns, will be in charge of Harry J. Douglas.

OUSTED OFFICER'S REPORT SCORED

A tangled web, with records and files "incomplete and often unreliable," and checks drawn about on shelves and floor beneath filing cabinets, was unraveled before an audit of the accounts of Howard M. Payne, removed as receiver in oil land cases in 1918, was possible, according to C. E. Sisson, public accountant, whose report has just been filed with the United States District Court. Payne failed to make a final accounting of his receivership, Sisson declares, and he charges he was hampered rather than helped in his efforts to investigate the affairs of 43 corporations involved in litigation with the government and for which Payne had been receiver. The discharge of Payne followed an investigation of allegations that he had used his position to amass a fortune. The report shows that during his receivership of three and a half years, Payne received \$500,000 for salary and expenses. Salary amounted to \$20,889.00. Sisson says that several thousands of canceled checks "located in the files, boxes, desks on shelves and on the floor under the filing cabinets" were inspected. Bank transactions are criticized. Sisson says that on one occasion Payne deposited in the Commercial bank of San Luis Obispo \$740,785.87, "which was \$150,000 in excess of the combined capital and surplus of this bank." Further, the report says of bank transactions: "The entries on the receiver's books reflecting such checks drawn in favor of the American National bank, for credit to depositaries, frequently were post dated. In several instances we noted that checks issued by the receiver had passed through the clearing house and were perforated 'paid' on a date earlier than that appearing on the books as the date of issue. Our examination disclosed that the American National bank apparently did not always notify promptly the depository bank regarding receipt of receiver's checks; during the interim the American National bank held the amount of such check on deposit."

Husband of Slain Woman Is Sought

LOS ANGELES, Jan. 12.—Every hotel and rooming house in Los Angeles was being searched today for T. E. McCann, whom the police want to arrest for the alleged murder of Mary A. McCann, aged 79, his wife. The search has been extended also to other California cities and a watch is being kept on the Mexican border.

Mrs. McCann, who is said to be of a prominent Leighton, Iowa, family, was found dead at her home here late yesterday. Her throat and both wrists had been cut with a razor. Near the body was a note reading: "To the coroner: My wife compelled me to do this act." It was signed: "T. E. McCann." Police have taken into consideration, they said, the possibility that the note is a forgery.

Mrs. McCann, who was married to McCann two years ago, had property worth \$20,000 and police believe possession of this property played a prominent part in her death.

IS ROBBED AT
PISTOL POINT

BERKELEY, Jan. 12.—The muzzle of a short revolver, held close under the nose, looked as large as the mouth of a tunnel to Sam Kuboda, owner of a store at 839 University avenue, last night when two hold-up men entered his place of business and rifled his till of \$20.

Adopted French
Village Rebuilt
California Style

(By Associated Press)
WASHINGTON, Jan. 13.—Vittum, "adopted" village of a group of California cities, is one of the first of the hundreds of French devastated towns to be entirely restored, according to a report of the American Red Cross. The ancient Gothic church of the town has been replaced by a modern stone structure, which, while in conformity with the best traditions of French taste, nevertheless presents in its broad eaves a suggestion of the architecture of Los Angeles.

WOMEN SELECTED
FOR DEMOCRATIC
JUNE CONVENTION

Appointment of a committee of seventeen, including two women to arrange for the Democratic national convention at San Francisco on June 28 was announced today from Washington by Chairman Cummings of the national committee. This will be the first time women have had a hand in the preliminary arrangements of a presidential nominating convention. Cummings said, according to despatches to The Tribune.

Chairman Cummings will head the committee and the members will be: Mrs. George Bass, Chicago; Miss May E. Fox, Los Angeles; J. Bruce Kremer, Montana; Wilbur M. Marshall, Iowa; Edward G. Hoffman, Indiana; Clark Howell, Georgia; Norman E. Mack, New York; Fred B. Lynch, Minnesota; Charles Boeschenstein, Illinois; E. H. Moore, Ohio; Arthur P. Mullen, Nebraska; Dr. John W. Coughlin, Mass.; Isador B. Dockweiler, California; John Barnett, Colorado; Patrick H. Quinn, Rhode Island; and Robert H. Elder, Idaho.

Police Trace Clews
To Mysterious Fire

Police Inspector William Kyle has been detailed to make a thorough investigation of a fire today at 839 Twenty-second street. It is thought by the police and fire department that the fire was of incendiary origin. It is said by firemen that burning embers were found lodged against the building when the department arrived on the scene.

The building, which is occupied by several families as a tenement house, is owned by G. Bowler and managed by G. Bowler. Owing to the record time in which the fire department responded to the alarm, the damage was held down to a nominal figure.

It is said that the police are in possession of definite clews which will be run down.

Council Will Request
Key Route Transfers

A resolution requesting the State Railroad Commission to issue an order compelling the San Francisco-Oakland Terminal Railway to put into effect a transfer station between Key Route trains and the street car lines operated by the company in Oakland was passed by the city council this morning.

The resolution was submitted by Commissioner of Revenue and Finance W. H. Edwards and was passed without other comment than the statement that the present system under which transbay passengers are required to pay a street car fare of 5 cents in addition to the 10-cent ferry fare is resulting in forcing many Oaklanders to seek homes in the peninsula district below San Francisco.

War Hero Weds
Gotham Actress

Another chapter in a life of romance, surprise, and daring exploits has been written by Joseph Leslie Moody, hero of the world war, lieutenant in the Marines, and former student and society leader at the University of California. Moody was married yesterday to Miss Catherine Harriman of New York, said to be a member of the Bigelow family.

The marriage of young Moody, who is known as a favorite in San Francisco society, to the stage beauty was kept a secret from his father, Frederick D. Moody, and from his friends on the campus at Berkeley, until last night when it was learned that the ceremony had been performed by Justice of the Peace Thomas F. Frendersgaard.

DON'T SUFFER
WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving instant relief. Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, neuritis, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet—colds of the chest (it often prevents pneumonia). It is always dependable. 30c and 60c jars; hospital size \$2.50.

Changes in Accounting of
School Department to Be
Made for Next Fiscal Year

The accounting department of the Board of Education was dealt with last night in the form of a report from the finance committee, recommending the naming of a committee on reorganization and efficiency to consult with the department auditor and the Civil Service Board and to recommend, not later than May 15, changes in the accounting and office system to take effect at the beginning of the coming fiscal year.

The report also suggested the approval by the Board of the present positions and salaries in the accounting department for the remainder of the present fiscal year, subject to approval by the Civil Service Board.

With the report was submitted a list of employees numbering fourteen, exclusive of Auditor John W. Edgemon and a number of girls temporarily employed, calling for salaries amounting to \$1540 a month.

PROTESTS REPORT

Director Campbell protested the adoption of the report and approval of the positions, declaring that only six of the places were civil service positions and the other eight extras, and that steps should be taken at once to reduce the expense of conducting the department.

Campbell withdrew his opposition when it was pointed out that the present system cannot be changed successfully until the first of the next year, and the report was adopted.

The reorganization committee, that will attempt to put an efficiency system in the department is to consist of the school board, members of the finance committee, one of the superintendents, and Secretary Lloyd D. Burzee.

Investigation of the method of handling fire insurance and fire losses in the department was also provided for by the board, and the probe will be undertaken by members of the building and grounds committee and the finance committee.

Arrangements to have all school children furnished with cards exempting them from the routine physical examination at the request of the Board of Education were made by the board last night at the request of the California Public School Protective League, as a result of the protests made by that organization.

Investigation of alleged cases of violation of the law in regard to physical examination of pupils called to the attention of the Board by former Assemblyman George Gelder, representing the league, were referred to Superintendent of Schools Fred M. Hueter.

Wine Forms Part
Of Thieves' Loot

Police are investigating a series of burglaries in Oakland last night. Thieves broke into a barn owned by A. Fernandez, 1742 East Fourth street, and stole sixty-seven quarts of wine, Fernandez stated that the wine was of an ancient vintage and highly prized.

Another case of burglary in which whisky formed the loot secured by the marauders was reported this morning by V. O. Lawrence, 525 Thirteenth street, who states that thirty-six cases of whisky were stolen from a warehouse owned by him at Fifth and Kirkham streets.

Woman's Body Found
Believed Mrs. Palmer

Albert Palmer of 1820 Grove street, will be taken to the Alameda morgue late today to view the body of a woman drawn from the bay near Day Farm island in the chance that it may be his wife, Mrs. Katherine Palmer, whose disappearance was reported to the Oakland police last night. Descriptions given do not tally in entirety, but the officers say that there is still a possibility that the dead woman may be Mrs. Palmer.

Man Found Guilty
Of Annoying Women

William Cummings, who is also known as W. J. Parsons will be sentenced tomorrow by acting Judge Herbert D. Wise, having been adjudged guilty today of annoying women in a local theater. He is charged with battery.

Freedom Given Four
On Reform Promise

Promises of four prisoners to reform brought clemency today from Judge James G. Quinn. He freed them on five years' probation. They are James Burns, 20; Tony Miller, 25; Ericson Browning, 37, and Joseph Prayer, 32.

Oakland Legion
To Meet Tonight

A special meeting of Oakland Post of the American Legion will be held tonight in the north hall of the Municipal Auditorium for consideration and adoption of a new constitution and by-laws.

Dr. Reinhardt Will
Talk on Poetry Era

"A New Era in American Poetry" will be the topic of President Aurelia Henry Reinhardt of Mills College in an address in Altamere Hall at 3:40 tomorrow afternoon. This is one of a series of talks by President Reinhardt on "Books of Today and Tomorrow."

TWO SERIOUSLY
BURNED AS GAS
MAIN EXPLODES

Two men received painful burns about the hands and face when a gas main of the Pacific Gas and Electric Company which crosses the inlet to Lake Merritt from the inner harbor at the Eighth street bridge exploded this morning. The men are:

JOHN MCCLUSKY, age 39, 717 Castro street.

JOHN BOYLE, age 31, 846 Twenty-second street.

Both are mechanics employed by the gas company and were searching for the reported leak in the main when the explosion occurred. It is not known how the escaping gas was ignited.

Groceries Stolen in
Broad Day Light

A large quantity of groceries were stolen from the back porch of Mrs. C. D. Cooley, 3557 Railroad avenue. According to the report turned in to the police, the theft occurred in broad daylight.

The plunder obtained by the same thief last night included several sacks of potatoes stolen from the back porch of Mrs. Cooley, 3557 Railroad avenue. Evidence points to the use of an automobile by the thief.

COUNCIL PASSES
HARBOR PLANS
FOR BERKELEY

BERKELEY, Jan. 13.—The city council today approved the plans for the first of the harbor development, calling for an expenditure by the water front lessee of \$2,000,000, and at the same time the proposed city planning ordinance known as the comprehensive zone ordinance, was postponed for consideration another week.

Objections to the zone ordinance developed spontaneously today as the result of the mass meeting on the subject last week. Councilmen Carl Bartlett and Hayward proposing that before the expenditure involved in making the legality of the ordinance should be tested. The ordinance, it is estimated, will occasion a property loss of \$250,000, as the result of eliminating business from districts proposed for residence purposes only.

Councilman Bartlett and Mayor Bartlett were opposed to the approval of the water front plans, asking for more time for their consideration by the council. The proponents of the measure urged that sufficient time had been allowed and charged that the mayor merely wanted delay without any reason for it.

Oakland Den Will
Nominate Officers

Nomination of officers and three directors will take place at the luncheon of Oakland Den, International Association of Lions Clubs, in the Hotel Oakland tomorrow. There is to be a stated meeting and there will be no guests. The usual program of entertainment will be provided.

U. C. SHOWS
ENROLLMENT
OF 10,300

BERKELEY, Jan. 13.—With twice as many new students enrolling yesterday as was expected, the University of California has passed the 10,000 mark in registration for the first time in its history. Figures compiled by Recorder James Sutton show approximately 10,300 students enrolled in the various branches of college work, exclusive of another 18,000 engaged in extension activities.

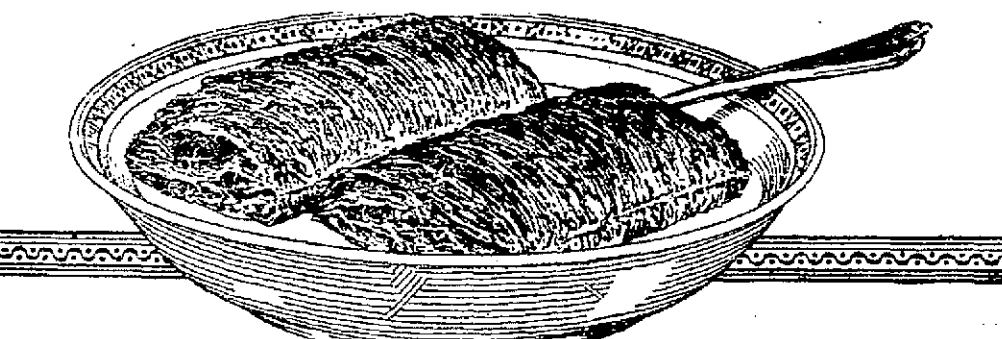

FIGURES GIVEN TO DATE

To date the registration figures are shown in the following table compiled by Recorder Sutton:

At Berkeley—	
Undergraduates.....	7,042
Graduates.....	756
Affiliated colleges (estimated).....	439
Southern branch (estimated).....	250
Total registration (estimated).....	10,300
This Last Year.....	7,738
Registration.....	4,562
Now undergraduates.....	541
Total at Berkeley (est.).....	8,800
Total at Berkeley.....	7,018
Five hundred applications for work during the present semester have already been received by the Alumni Bureau of Occupations.	

DON'T ROB THE "KIDDIES"

of the foods that promote growth. An essential food element for growing children are the "vitamins" found in the whole wheat. Shredded Wheat contains all the vitamins and mineral salts combined with the body-building elements in the whole wheat grain—the perfect food for growing children. Two Shredded Wheat Biscuits served with hot milk make a warm, nourishing meal at a cost of a few cents—the most real food for the least money.
